

Dear FCC Folks,
I urge you to reject the National Association of Broadcaster's petition 04-160.
The NAB should not be allowed to "dictate" what satellite radio broadcasts.
Facts:

1. I pay for my satellite service and love it. I can listen to exactly what I want. And I can't get that from local radio!!!
2. Local radio stations are just running scared, like Hollywood did when TV came along. But TV didn't run Hollywood out of business! There was room for both. It was just a new way of delivering entertainment. Same with Satellite radio.
3. I wasn't listening to local radio anyway! I had resorted to CDs and cassettes. So I'm not a "lost customer" to begin with. I'm sure I'm only one of many.
4. If this is the America I know and love, you'll reject the NAB's petition. It's just professional jealousy. If you restrict satellite radio, YOU'D BETTER GO AFTER WAL-MART FOR THE SAME REASON!

I rest my case. I'll be WATCHING what you DO.

Respectfully yours,

Philip W. York
